

## PROJECT FOCUS

.....

To more efficiently collect data on open positions (and their details) in the tech industry

## DELIVERABLE

- .....
- Development and documentation of Python scripts for scraping open positions from three different job websites – LinkedIn, Monster, and Indeed.com

Austin Urban Technology Movement (AUTMHQ) bridges the gap between the Black and Hispanic communities and the technology industry through job placement, career development, and networking opportunities. To do this, AUTMHQ partners with employers, organizations, institutions, and government entities to help the Black and Hispanic community get trained to enter and thrive in the tech industry, and radically change their income and build a career.
