

PROJECT FOCUS

To improve Abide Women’s Health Services’ ability to measure and track the impact of its programs and services.

DELIVERABLE

- Development of an online (Qualtrics) client survey, in both English and Spanish

Abide Women’s Health Services' mission is to improve birth outcomes in communities with the lowest quality of care in Dallas, Texas. It works towards its mission by offering healthcare and complimentary services that are easily accessible, holistic, evidence-based and free from judgment.
