

## PROJECT FOCUS

To develop a shared understanding of the behavioral and social sciences ecosystem in order to support and strengthen discovery to application pathways to increase impact.

## KEY ACTIVITIES & DELIVERABLES

- Collaborated with FABBS team to:
  - identify key questions and data required for better understanding the behavioral and social sciences ecosystem
  - develop and administer an ecosystem stakeholder survey
- Conducted analysis on survey data; summarized findings and key themes

Federation of Associations in  
Behavioral & Brain Sciences

The Federation of Associations in Behavioral and Brain Sciences (FABBS) is a coalition of scientific societies, academic departments, and organizations that works toward advancing the rigor and maximizing the impact of the behavioral and brain sciences through advocacy, communication, and education.
