

**PROJECT FOCUS**

To develop a Theory of Change to represent Financial Health Pathways' approach.

**DELIVERABLES**

- Theory of Change one-pager
- Theory of Change summary slide deck
- Organizational-level logic model

Financial Health Pathways (FHP) is a community-centered organization focused on improving the financial health of Texans. It works to address the barriers community members face through creating equitable financial systems, increasing access to fair financial products and services that support savings, spending, planning and borrowing responsibly, and designing and supporting financial capability programs that promote asset building and generational wealth.
