

**PROJECT FOCUS**

To refine the framework and tools Westcave Outdoor Discovery Center is currently using to evaluate its Girls+ Outside program.

**KEY ACTIVITIES & DELIVERABLES**

- Collaborated with G+O staff lead to: develop a program logic model and draft new, age appropriate versions of G+O's pre- and post-participant surveys (elementary school versions and a middle and high school versions)
- Created a coding guide to accompany the new pre-/post surveys
- Conducted preliminary analysis with the pre-survey data and provided suggestions for future data analysis

Westcave Outdoor Discovery Center's Girls+ Outside (G+O) Program provides K-12 girls from 10 Austin ISD schools with opportunities to learn and grow together through time in nature. The program fosters nature connectedness and everyday wonder while putting great care into creating the conditions for social bonding/trust.
