

PROJECT FOCUS

.....

To support Pottsboro Library in exploring the relationship between broadband usage and health outcomes in Grayson County, TX.

KEY ACTIVITIES & DELIVERABLES

-
- Conducted research to identify social determinants of health (SDOH) variables important for exploring the relationship between broadband access and health outcomes
 - Identified publicly available data sets containing SDOH variables of interest; compiled findings into an organized data sheet (e.g. metadata repository)

Located in Pottsboro, Texas, the Pottsboro Area Library provides a space for Grayson County children, teens and adults to find opportunities to connect with people and information in a beautiful, comfortable space. The library is the crossroads of the community, providing community members programs and services inside and outside the building.
